

I'm sorry (for all the things we couldn't do)

Capo 3

332                    320                    022  
Language made it impossible to interview  
Trying to capture interesting faces  
It was approaching noontime  
And don't waste your energy

**332                    022                    x0221**  
**I'm sorry for all the things we couldn't do**  
**I'm sorry for all the things I couldn't explain**  
**I've invited you over for all these things**  
**I'm sorry for all the things we couldn't do**

Revolution is an ultimatum  
My father prayed for ten days  
He started to think that the government might change  
It's a quick meeting at the office

**Chorus 2\***

One last time, one last spot  
There's no justification for suffering  
There, you were waiting for one last time  
One last spot at the local office

**Chorus 2\***
