

I will be there

Capo 3

xx323 x3023 x2023

He's got a cell phone and his own TV
Why couldn't they understand that
Another way of taking it
And the fever called « living » is conquered at last

Chorus

20023 32003

I will be there

55403 x554

When your partner comes in

I will be there

So that he can see

What he saved, what he gave

I don't know, I will be there

The deposits and the account email
It's local and it's a mail drop
There's a show up tomorrow for his camera
Already waiting in the conference room

Chorus 2*

I tried to call you this morning
On Venture Boulevard, Maine Texas
All over here on the west side
I will be there
