Watching everyone say goodbye  
What it said on the telegram  
The moonlit sky, and the air  
Was the last thing I saw

33201 02001 x32010  
Can't live in the past  
Have lived so young  
How do you know  
Can't live in the past

xx0231 022000 133211  
Why are you running away  
Looking for someone  
You probably already have plans  
I can make my own way back

33201 02001 x32010  
Can't live in the past  
Have lived so young  
How do you know  
Can't live in the past

xx0231 022000 133211  
It has happened before  
Yes, but it was right to be afraid  
As you disappeared back to your room  
You've seen it happen before

33201 02001 x32010  
Can't live in the past  
Have lived so young  
How do you know  
Can't live in the past
